May 2021

Candidate's Declaration

I hereby certify that the work which is being presented in the project entitled "**Computer Science Portal"** in fulfillment of the requirement for the award of the degree of Bachelor of Technology in Computer Science and Engineering of M.M Engineering College, Mullana, Ambala, Haryana, India is an authentic record of my own work carried out during a period from August 2020 to Nov 2020, under the supervision of **Dr Neeraj raheja(Associate professor).**

  The matter presented in this thesis has not been submitted by me for the award ofany other degree of this or any other Institute/University.
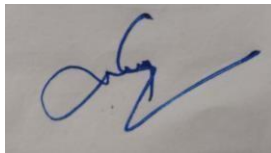

This is to certify that the above statement made by the above candidates is correct to the best of my

knowledge.

Date:29 May

Acknowledgement

I wish to express my deep sense of indebtedness and sincerest gratitude to ourguide**, Dr. Neeraj Raheja**

(Associate professor)for his/her invaluable guidance and constructive criticism throughout this work.

She/he has displayed unique tolerance and understanding at every step of progress and encourage us. We deem it our privilege to have carried out our project work under his/her able guidance.

We would especially like to thank **Dr. Sandip Kumar Goel (Professor and Head, CSE Department, MMEC)** without whom, this work would not have been as it is now.

As a Final Personal Note, We are grateful to our parents, who are inspirational to us in their understanding, patience and constant encouragement.

TABLE OF CONTENTS

Introduction--:

Computer Science Department portal is an online web portal for the students . It is an interactive service for students . It is easy to access .

The ultimate resource to prepare for coding interviews. Everything you need, in one streamlined platform.

CSP is an interview prep platform for software engineers. It's specifically geared towards those who want to work at a FAANG-level company. Featuring a robust interactive coding preparation environment.

OBJECTIVE OF THE PROJECT --:

CSP provides links to Computer Science learning resources that have been developed by the various Computer Science content development projects.

The main content development project is the School of Computer Science. This portal features exciting examples of Computer Science learning resources.

CSP participants who are interested in Computer Science are invited to create and participate in learning projects and learning resources and help organize them by developing this portal. We're just starting, but we already have some good materials.

The Computer Science Portal serves to provide quick access to everything in the Computer Science category.

SYSTEM SPECIFICATIONS-:

Important: We will continue to fully support Chrome   To

use Chrome Browser on Windows®, you'll need:

- • Windows 7, Windows 8, Windows 8.1, Windows 10 or later
- • An Intel Pentium 4 processor or later that's SSE3 capable

Note: Servers require Windows® Server 2008 R2, Windows® Server 2012, Windows® Server 2012 R2, or Windows® Server 2016.

Linux :

To use Chrome Browser on Linux, you'll need:

- 64-bit Ubuntu 14.04+, Debian 8+, openSUSE 13.3+, or Fedora Linux 24+
- An Intel Pentium 4 processor or later that's SSE3 capable.

Data flow diagram--:
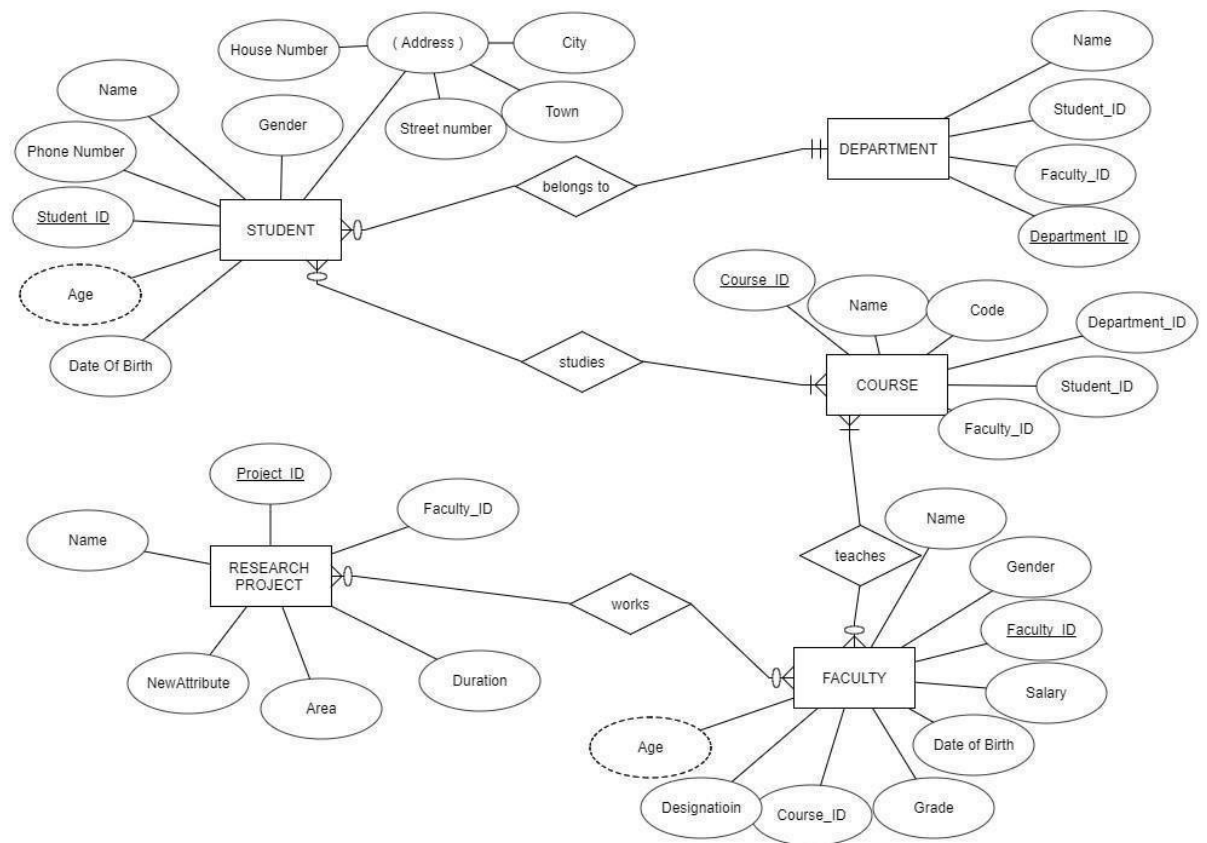

A Data Flow Diagram (DFD) is a graphical representation of the "flow" of data through an Information System. A data flow diagram can also be used for the visualization of Data Processing. It is common practice for a designer to draw a context-level DFD first which shows the interaction between the system and outside entities.

This context-level DFD is then "exploded" to show more detail of the system being modeled.

A DFD represents flow of data through a system. Data flow diagrams are commonly used during problem analysis. It views a system as a function that transforms the input into desired output. A DFD shows movement of data through the different transformations or processes in the system. Dataflow diagrams can be used to provide the end user with a physical idea of where the data they input ultimately has an effect upon the structure of the whole system from order to dispatch to restock how any system is developed can be determined through a dataflow diagram.
